

FINISHED EXAMPLE · PREPARED DEMONSTRATION

The approved style becomes a matching social graphic

You practise this in the course

Exported for each channel through a supported option, such as PDF or an image export via Canva.

YOU START WITH

The approved landing-page prototype and its brand references.

THE PROMPT USED

“Create a square and a landscape social graphic announcing free review calls, using the same colours, type and photo as the landing page. Keep it to one message and one action.”

STILL NEEDS HUMAN CHECKING

- The offer wording with the business
- Legibility at the size it is actually seen
- Image rights for the photo

WHAT YOU PRACTISE

Reusing a design system for a supporting asset, checking legibility at small sizes and exporting for each channel.

THE FINISHED OUTPUT CONTAINS

- A square and a landscape version
- The same colours, type and photo as the page
- One message, one action, readable on a phone
